The form of the double flower is a perfect ball; the quills are close together and of **the brightest sulphur yellow,** not a mere indication of the color, as in all former productions. The border petals are broad and of a lighter tint, seeming to enclose the flower like an old-fashioned bouquet paper. The flowers are borne upon long, erect stems, excellent for cutting. The plants, 12 to 15 inches high, are of compact, bushy growth and most abundant bloomers.

Pkt., 150 seeds, 7c; 1-8 oz., 50c.

These loose, airy heads, made up of very long, wavy, twisted petals, have a distinct feathery effect, resembling the finest Japanese Chrysanthemums, and are of rich brilliant colors. NEW SENSATION ASTER

In the new "Sensation" I believe I have something of unusual merit, a color never before seen in Asters, and a flower which is unequalled in quality, size and perfection of bloom. Stems are usually a foot long and very stiff, making this wonderful Aster exceptionally valuable as a cut flower. Cactus

CACTUS

One of the Most Interesting Plants that Can Be Grown

The Cactus is one of the oddest appearing plants that have ever been cultivated. There are many different shapes and sizes, most of which blossom very easily. Much pleasure can be had from growing Cactus from seed. Everyone is surprised at the odd appearance of a Cactus just sprouting; besides this is the only way to secure new and rare varieties, as no two plants are often alike. If you desire a fine collection sow the seed, start in a warm room in moist sand. The plants are easy to grow, as they endure the heat and dryness of the living room very well. **Pkt. 50 seeds, 8c.**

CANARY BIRD FLOWER

The Daintiest Climber and One of the Prettiest

This flower has been admired wherever grown. It is certainly a beautiful climber, with dainty and showy foliage; but its chief attractions are the charming little canary-colored flowers, which in shape bear a fancied resemblance to a bird with its wings half expanded. The plant is a rapid grower, and if the seeds are planted close to a trellis, will usually grow 20 feet in a summer. Blossoms from July until frost. **Pkt., 20 seeds, 6c; 1-2 oz., 15c.**

NEW GLOWING GOLD CALENDULA

The Calendula is one of the most satisfactory of our summer flowers. It is in bloom almost continuously from the last of June until destroyed by heavy frosts. CENTAUREA (Imperialis)

Giant Sweet Sultan

For summer garden flowers the Centaureas are surely among the best. Each plant produces dozens of flowers which are on long wiry stems, making them most valuable for bouquet work, as they last well after being picked. My improved Imperialis or Giant Sweet Sultan is a magnificent strain, with flowers exquisitely fringed, delightfully sweet scented, and at least twice the size of the older varieties. The plants are also earlier flowering.

Pkt., 100 seeds, 6c; 1-8 oz., 15c.

CENTAUREA (Odorata)

NEW MARGUERITE

Flowers about the size of Carnations, profuse bloomers, sweet scented, and last well after cutting. Mixed colors ranging from pure white to lavender and yellow.

Cineraria—Hybrida

CINERARIA—Hybrida

One of the Most Popular House Plants

CARDINAL CLIMBER

The Most Beautiful and Brilliant Annual Climber

A strong and rapid grower attaining in good soil and in a sunny situation a height of 30 feet or more; it has beautiful fern-like, laciniated, rich green foliage, and from midsummer till frost is literally covered with clusters of tubular flowers, 1½ inches across, of a dazzling scarlet color.

If started outdoors, seed must not be sown until the weather is settled and warm; otherwise the seed is liable to rot. File or cut a small notch in each seed and soak in lukewarm water over night to hasten germination.

NEW BUSH MORNING GLORY

This is very novel and creates a sensation wherever it is grown. It is a true Morning Glory, yet it grows in a bush form instead of climbing. The flowers are as varied in form and of as beautiful colors, as any of the tall varieties. Seed sown in the spring will soon form bushy plants 2 feet in diameter and 12 inches high and bloom all the season, the flowers remain open all day and are produced in a great many lovely and rich colors and variegations. They are elegant for hanging baskets, edgings, and grow in masses in beds, producing an unusually brilliant effect. **Pkt. 50 seeds, 5c; 1-2 oz., 15c.**

Others are edged with white, having throats of a bright color: there is also an endless number of flowers spotted, marbled, striped, flaked and splashed.

The seed pods quickly form on the end of the long wire-like stems and bear a striking resemblance (as is shown in illustration) to the flower buds produced by the Fuchsia. **Mixed colors. Aloha Flower—Nemesia

ALOHA FLOWER NEMESIA

A Beautiful Flower From Hawaii

In far off Hawaii one of my friends saw this flower, and brought me my first seeds of it. There it is known as "Aloya," which is their name for "good luck."

The plants grow about a foot high, and during the summer are covered with flowers of every known color, with markings and colorings as beautiful as those of the orchid. This flower can be grown in the house, but care must be taken that they do not get too warm. When in the garden out of doors, the best show will be obtained from plants set six inches apart. **Pkt. 150 seeds, 8c.**

HAINES BEAUTIFUL PHLOX

Double Flowering Phlox

DOUBLE FLOWERING

Double Phlox are the most desirable annuals for cut flowers, lasting longer than single ones. I have secured a particularly fine mixture, which has a large percentage of pure white and cream color, perfectly double and semi-double. Tho white is especially valuable as a cut flower. The semi-double flowers are fully as desirable as tho doubles; in fact, many claim they are even prettier. This Phlox is not rivaled among garden flowers in brilliancy of bloom. They are strong growing, healthy plants, with pretty foliage, and belong in every garden, being one of the most brilliant and at the same time one of the earliest and most satisfactory plants, which can be readily grown from seed. The fine blooms, produced in large trusses, furnish a grand display in the garden and are very effective for table decoration. **All colors mixed. Pkt. 500 seeds, 8c; 1-8 oz. 40c.,**

STARRED AND FRINGED

In these new Phlox you will find something unusual in a garden flower. In the fringed flowers the petals are fimbriate, three-toothed, of a great variety of magnificent velvety colors with a bright eye in the center and a white border. In the Starred Phloxes the central teeth of the petals are five or six times as large as the lateral ones, and projecting beyond them like little spines, give the flower a distinctively star-like form. **All colors mixed. Pkt. 200 seeds, 7c; 1-8 oz., 25c.**

NEW GIANT—SWEET SCENTED

Giant Snapdragons have become immensely popular in the last few years. This is not to be wondered at, as there are few flowers which for gorgeous coloring can match this Snapdragon and are as valuable for cut flowers as for show in the garden.

The plants grow 2½ feet high, are of healthy, robust growth, with deep green foliage, free and continuous blooming, producing immense spikes with enormous flowers, double the size of the older sort, and of great fragrance.

Spring sown seed outdoors produces flowering plants in July, remaining in bloom until frost. For earlier flowering, start indoors and transplant when weather is suitable.

Their ease of culture, independence of heat and drought, continuous blooming qualities, and their magnificent, bright colors should entitle these Snapdragons to a place in every garden. **Pkt., 300 seeds, 7c; 1-8 oz., 25c.**

A most charming and beautiful native plant. Grows from 18 to 24 inches high, bearing freely from early in July until October its handsome Cornflower-like blossoms, which measure from 4 to 5 inches across. It is of the easiest culture, succeeding in any open, sunny position, and not only is it desirable as a single plant in the hardy border, but it can also be used with fine effect in masses or beds of any size. **Mixed colors. Ten Weeks—Colossal

This magnificent strain is without a rival for open ground planting, attaining a height of 2½ feet. The spikes of bloom are very long, and the individual flowers are enormous in size and very double. These popular flowers are easily grown, and are so highly fragrant and of such great beauty and have so many good qualities, that they deserve a place in every garden. They should be given good, rich soil to grow in, and will amply reward good treatment with remarkably large pyramids of bloom; the flowers represent a great diversity of brilliant color from snow-white to dark maroon brown and through all intermediate shades of red, blue and yellow. It is a grand bedder and a fine pot blooming plant, blooming the winter through. It has every merit of a perfect flower. **Pkt., 100 seeds, 8c; 1-8 oz., 45c.**

They do not flower as quickly from seed as Ten Weeks Stocks, but require about 12 to 15 weeks. Plants started indoors and set out in May will begin flowering in July and continue till frost. For winter flowering, for which they are peculiarly adapted, the seed should be sown from July to September. **Mixed colors. Pkt., 75 seeds, 6c; 1-8 oz., 40c.**

CHINESE WOOL FLOWER

Chinese Wool Flower

This was introdueed from China a few years ago and has proved a great sueeess overywhere. There is not the slightest doubt bnt that it is the most magnifieent garden annual ever introduced.

Plants grow 2 to 3 feet high, the bloom starting early with a central globular head which often reaches an immense size. Dozens of branches are thrown out, each bearing a ball of scarlet wool. All these branches support numerous laterals with small heads of bloom mixed with fresh green foliage, so that a plant looks like an immense bouquet splendidly arranged and set in the ground. None of the blooms fade in any way until hit by frost, but all continue to expand and glow with a deepening richness of color. Flowers when cut in a fresh state and carefully dried retain their shape and brilliant color and are useful for winter decorating like everlastings.

Start seed if convenient in the house about four weeks before time to transplant to the garden. If the little plants remain too long in pots or seed beds they will begin to set bloom, which is not desirable. Transplant to the garden as soon as danger of frost is past.

WONDERFUL WEATHER PLANT

This beautiful plant has during past years created a great sensation throughout the world. It is said that the leaves by changing their position, foretell the weather two days in advance, and extensive experiments prove that it is in truth prophetic, while other experiments have not been so successful, and it is yet an open question as to its merits in this respect. It is at least a graceful vine, with lovely foliage and flowers. The cut shows the position the leaves are supposed to assume in foretelling the weather. If the leaves stand upward from the twig, making an angle with each other of 45 degrees, the sky will be cloudless and the weather beautiful in all respects. If they stand out straight, changeable weather is indicated. As the leaves droop below the twig the indications range toward rain, until, when the leaves hang straight downward, water may be expected to fall in torrents. A local storm is indicated by the curling together of the leaves, and a fog by the bending of the twigs. Seeds are of good size and sometimes slow to germinate; should be soaked in lukewarm water before planting. **Pkt. 20 seeds, 10c.**

WYOMING

The Best Orange Flowered Canna Grown

A splendid plant, blooming throughout the summer and fall. Flowers are bright orange; a color which contrasts nicely with the attractive purplish bronze foliage. Height, 6 feet, and very handsome. **Price, each, 25c; doz., $2.50, postpaid.**

PLEASE NOTE: **I send out Growing Canna Plants only. My prices are low; in fact, I am only charging what most firms sell dormant roots at—but my splendid started plants are easily worth twice as much.**

Canna roots cannot be left in the ground where the winters are cold. When digging them late in the fall it is best to leave a portion of the earth adhering to the roots until they are well ripened. Store them in a fairly warm room or cellar, keeping them in a box filled with dry soil. In planting out the following spring, the large clumps having several stalks or stems should be pulled apart and the divisions treated as separate plants.

BEAUTIFUL CALLAS

Easy to Grow, Sure to Bloom, Bound to Please

NEW GOLDEN SUNBEAM CALLA

This New Calla is the most beautiful flower ever offered. Thousands of my customers were delighted with the exquisite blooms. Many plants bloom when 6 inches high, while a full grown plant is a sight never forgotten. The bulbs are strong and send up numerous flowers, which are golden yellow with darker center. The color is one of the most beautiful shades of yellow seen among flowers and the dark center lends to the blossoms a peculiar charm. Leaves differ, some being solid green, others spotted with white. **Each 35c; 3 for $1.00, postpaid.**

Golden Sunbeam Calla

Little Gem Calla

TRUE LITTLE GEM CALLA

DECORATIVE DAHLIAS

Large, Strong, Stately Growing Plants of Rare Beauty

Decorative Dahlia—King of the Autumn

KING OF THE AUTUMN

This is a great Dahlia, both as a cut flower and also as for garden decoration. Its habit of growth is ideal, producing an abundance of flowers of good size, 6 inches or more in diameter, which can be cut with stems 4 feet long. It is of true decorative form excepting late in the season, when it often develops flowers of the Paeony type. In color it is one of the most effective and pleasing autumnal tints, a luminous salmon-pink passing to a golden suffused buff near the edges which is particularly pleasing under artificial light. King of the Autumn, I am convinced, is a winner, and a variety that will become one of the most popular. **50c each, postpaid.**

OREGON BEAUTY

I doubt if there has been a single visitor to my Dahlia fields who has not included this brilliant gorgeous variety in his selection. It has also been prominently displayed at all exhibitions, its rich color, an intense Oriental-red with golden sheen and garnet suffusion, makes it one of the varieties that stands out prominently among all of its neighbors. Add to its large size, long stiff stems, with an unusual freedom of bloom, and it is one of the most desirable garden varieties. **40c each, postpaid**

DELICE

One of the most popular pink varieties. Its beautiful soft, yet lively color, a glowing rose-pink, together with its perfect shape, stout, stiff stems, and the fact that when cut it retains its freshness for a long time, makes this one of the most valuable for cutting or decorative sorts in the garden. **30c each, postpaid.**

FLAMINGO

As a cut flower this ranks with Delice; the flowers are of rich and glowing rose-pink; while it frequently shows an open center, this does not detract from its beauty. **35 each, postpaid.**

GEISHA

The showiest and most attractive of this type yet introduced; the rich colored flowers are original in form, consisting of peculiarly twisted and curled petals, of an effective and rich combination of scarlet and gold. **35c each, postpaid.**

LEO XIII

This is the finest yellow decorative dahlia to my knowledge; its flowers being of gigantic size, and produced upon long stems. It is a beautiful deep golden yellow. Early in the season the flowers are perfectly double, and full to the center; a perfect decorative variety; but as the season advances it shows its beautiful yellow center, making it a beautifully quilled paeony-flowered dahlia. As a cut flower variety it is ideal. For exhibition purposes it is unsurpassed. **40c each, postpaid.**

PRINCESS JULIANA

An ideal pure white for all purposes. A splendid cut flower and a good decorator for the garden. It is one of the earliest to flower, and continues in good shape throughout the season. It holds its flowers well above the foliage on stiff, wiry stems. **40c each, postpaid.**

NEW CACTUS DAHLIAS

A New Class, Wonderfully Graceful and Attractive!

BREAK O' DAY

A good-sized flower with a full, high center with more or less curved and twisted petals, intermingled with the flatter ones, forming a most attractive graceful flower. CRYSTAL

A great exhibition flower of large size and splendid form; long twisted incurved tubular petals of a tender silvery pink, which passes gradually toward the center to a soft ivory white. **45c each, postpaid.**

Cactus Dahlia—Break o' Day

KALIF

A truly majestic flower, frequently measuring over 9 inches in diameter, of perfect Cactus form, in color a pure scarlet. The habit of the plant is all that can be desired, growing about 4½ feet high; the gigantic flowers, which are produced very freely, are held erect on strong stiff stems, making it a most effective and useful variety for cutting as well as for garden decoration. **40c each, postpaid.**

ALABASTER

Blooms of large size, just sufficiently incurved in form to show to advantage when exhibited. Flowers of the purest white. The plant is sturdy and dwarf and carries the flowers boldly on stout stems. **35c each, postpaid.**

WODAN

A large, bold and most effective flower, raised well above the foliage on strong stems. The color is a pleasing delicate salmon rose, shading to old gold in the center. The petals are tubular and semi-incurved, giving great depth to the flower. When cut it retains its freshness a long time. **Price, 35c each, postpaid.**

YELLOW KING

This is a wonder. It stands up so straight and stiff that many people confuse it with a chrysanthemum. Too much cannot be said in praise of this marvelous hybrid, as it possesses so many good qualities. The stem is very long and rigid; the color is a pleasing shade of yellow. It lasts days when cut; the formation of long twisted petals is perfect. Blooms freely all season. **35c each, postpaid.**

GRAND DOUBLE DAHLIAS (Unnamed) IN MIXTURE

HAINES BEAUTIFUL GLADIOLUS

A Select List of the Very Best Sorts

The Gladioli is the most satisfactory, the most desirable and the most popular of all garden bulbs. Nothing else of the kind costs so little, and nothing else grows and blooms so readily for anybody and everybody, in any soil or climate. It is, in short, the most satisfactory garden flower, thriving and blooming, as it does, with the least care and attention, and makes a display which for brilliancy and beauty of coloring nothing can surpass.

Harvest Moon Gladiolus

The Gladioli deserves a place in every garden, large or small, being of easiest possible culture. They make grand beds and the bulbs can be planted any time during Spring and early Summer.

BLUE JAY

Full round flowers of rich velvety purple-violet, lighter in the throat, a small golden rib through the lower petals is contrastingly effective; splendid tall, well furnished spike.

EUROPE

Very strong grower, one bulb often producing two or three flower stems. Long spike: flowers of medium size, with the exception of a very small purple streak at the bottom of the throat the flower is of a perfectly pure white color.

HARVEST MOON

The strongest growing variety in the yellow class; color deep golden yellow made more emphatic by mahogany in the throat. Grows to 2½ feet and bears long spikes of large flowers.

LOVELINESS

In color the flowers are of a delightful cream shade with the two lower inside petals or segments blending to canary-yellow. The throat is splashed and tinted with carmine. The flower spike is very erect and stout and is wrapped with broad dark-green foliage. This is destined to lead the cream colored varieties.

MYRTLE

A beautiful soft shell-pink color, tinged lavender; growth and habit perfect. Too well known to need comment. Fine for cut flowers.

PINK PERFECTION

The predominating color of these flowers is delicate apple-blossom-pink with a slight roseate tinge.

RED EMPEROR

Rich crimson with very deep shadings in throat, and magnificent large white blotches on lower petals. Flowers as large and fine as an Amarylis and probably the most magnificent sort as to size and beauty. Blooms for a long time.

NIGHTINGALE

Large flowers of a light scarlet color, or better described as flame color, are about 4½ inches across. Spikes always have five to six flowers open at one time. For garden effect or cut flowers it is one of the best.

Prices of the above eight varieties, 10c each; $1.00 per dozen, postpaid.

ADMIRAL BEATTY

Color is blush-white. Flowers are large and solid with very stiff, heavy petals, in fact the entire plant, stem and foliage, are large and strong. Plants should not be grown too closely together, as they need plenty of room to develop. If you want the very best in the whites or blush-white, this is the one to plant. **30c each, postpaid.**

GLORIOUS

This is the most popular of the large flowered Pink Chrysanthemums. It is easily grown, of robust, sturdy habit, and of a pleasing rose pink color. Flowers are incurved, very round, and often measure 8½ inches in diameter. Don't fail to have this in your collection. **30c each, postpaid.**

GOLD STAR MOTHER

The very finest exhibition bronze ever grown; color, deepest glowing orange-bronze, almost orange yellow, and of unusually large size. Every petal reflecting, thus showing the color to the best advantage. This variety has taken prizes at flower shows for size, beauty and color. **35c each, postpaid.**

MIDNIGHT SUN

For a mid-season flower this is the largest I know of; a monstrous yellow flower unsurpassed both in size and color in its season. This variety has been known to bloom early in October, which is unusual for so large a flower. **35c each, postpaid.**

MRS. DAVID LLOYD GEORGE

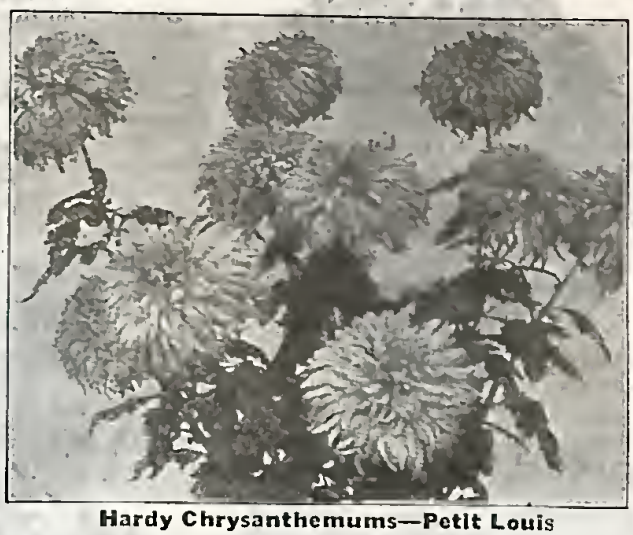
This list would not be complete without a two-toned flower, and this is the greatest in its color, ever sent out. Flowers often 9 inches across. Brightest crimson with gold tips and gold reverse. It is a splendid grower, with foliage right up to the flower. **30c each, postpaid.**

SERGEANT WM. E. YOUNG

Color deep warm bronze, so brilliant as to seem almost shading to scarlet. One fine feature of this flower is that the foliage comes up on the stem almost to the blossom itself, which makes it most satisfactory as a cut flower. One of the most gorgeous and beautiful Chrysanthemums. **30c each, postpaid.**

HARDY CHRYSANTHEMUMS

These are all very early varieties with full double, good sized flowers, selected for their earliness and hardiness. They begin to bloom the last of August and being frost-resisting, will continue to flower profusely until a very hard frost, often well into November, giving color, life and beauty to an otherwise empty garden. They are also root-hardy and will stand the winter most anywhere if given some protection of litter or leaves.



Hardy Chrysanthemums—Petit Louis

CRANFORDIA. An unusually early flowering sort that is nearly perfect in flower and stem. Foliage on the stem comes up nearly to the flower itself. Plants usually carry from 15 to 20 good flowers of deep bronze-yellow.

FIRELIGHT. Brilliant carmine, shaded with scarlet, usually in condition to cut in October—either indoors or outside. Certainly a fine color and very desirable.

NORMANDIE. One of the earliest, and by many considered the very best. Color distinct and unusual for an outdoor 'Mum, being creamy white. Plant upright, and flower stems strong.

PETIT LOUIS. Another unusual color, being silvery mauve. The plant is compact, but sends up many branches of beautiful flowers which last well when cut.

PROVENCE. A very fine large plant bearing on strong stiff stems a profusion of good sized flowers having bright pink petals with gold points.

LIBERTY BELL

The largest flowering Fuchsia in cultivation. TRAILING QUEEN

This Fuchsia is an entirely new departure, different from other large-flowering varieties in its habit of growth, as it is a trailing vine. The young plants, as they commence growth, creep out to the edge of the pot, and then go trailing downward. It continues growing and branching in this way until the vines are a solid wavy mass of the most elegant foliage and perfect flowers. The flowers are borne in large, drooping clusters; very large, long, graceful; sepals scarlet, corolla purple. **25c each; 3 for 70c, postpaid.**

BEAUTIFUL FERNS

New Roosevelt Fern

NEW ROOSEVELT FERN

The Greatest Fern of the Age

In general characteristics it resembles the Boston Fern, but it produces many more fronds, making it a bushier and handsomer plant; then the pinnae are undulated, giving it a pronounced wavy effect seen in no other fern.

Fine young plants 25c, 35c and 45c each, postpaid.

Larger plants $1.00, $2.00, $3.00 each, by express, not prepaid.

NEWPORT PARLOR FERN

Fine young plants 25c to 35c each, postpaid.

Larger plants $1.00, $2.00, $3.00 each, by express, not prepaid.

FERNS FOR FERN DISHES

I have grown a large quantity of small ferns suitable for fern dishes. Assorted varieties. **Each 20c; 3 for 55c, postpaid.**

Lace Fern

LACE FERN

The rare and delicate beauty of this plant can scarcely be shown by a picture or conveyed by a description. The bright green foliage of very delicate texture falls gracefully, giving it a style and air that cannot be surpassed. No more beautiful decorative plant has ever been produced. As a house plant it is deservedly popular, due to the fact that it will thrive under almost all conditions.

Fine young plants 20c to 30c each, postpaid.

Larger plants $1.00 to $1.50 each, by express, not prepaid.

THE OSTRICH PLUME FERN

New Crested Fern

NEW CRESTED FERN

Whitmanii

I think this the most popular Fern. Rather dwarf in growth, but graceful, very compact, dense and feathery. Each frond or branch has a double row of perfect little fronds set at right angles to the mid rib, and so thick they seem almost crowded. It is a healthy, vigorous grower, constantly unfolding fresh fronds of light green that contrast exquisitely with the deep green of the older fronds. It is somewhat like Roosevelt, but decidedly more fluffy, more delicate and beautiful. **Fine young plants, 25c, 35c and 45c each, postpaid. Larger plants, $1.00 to $2.50 each, by express, not prepaid.**

DOUBLE GERANIUMS

Double Geraniums are used more extensively than any other bedding plant; in vases or window boxes, in flower beds, as well as for cemetery decoration. Be sure to have some this season.

New American Beauty Geranium

NEW AMERICAN BEAUTY GERANIUM

The only Geranium of its color. The plants are compact, medium tall, of stately shape; lustrous green foliage with a brownish circle. The flower heads are gigantic and the individual blooms measure 2¾ inches across; often as many as eight spikes have fully opened, several half open flowers and more are in buds. It surpasses all other Geraniums—in brilliancy of color, in size of its blossoms and trusses and in constancy and profusion of blooms. **Fine, strong plants, 30c each; 3 for 85c, postpaid.**

DOUBLE NEW LIFE GERANIUM

Always scarce and difficult to obtain. The petals are dark red and in the center of each there appears a small pure white florot, giving the flowers a novel and curious appearance. Very beautiful when flowers are perfect, but variable and best for house culture. This is a grand and strikingly beautiful variety, but at the same time one of the most easily grown and satisfactory of all flowering plants. **30c each; 3 for 85c, postpaid.**

Strawberry Geranium

FIRELIGHT. Double, dark velvety scarlet. Used more than any other kind for bedding and pot plants. **20c each; 3 for 55c, postpaid.**

SINGLE GERANIUMS

Single Geranium—Supreme

Variegated Leaf Geranium

The Single Geraniums are considered by many to be superior to all other kinds. At all events the most delicate colors are found in the Singles as are also the largest blossoms. From the many varieties now being grown, I have selected the six which are considered the very best.

LADY BETTY. An excellent bedding variety. Color is most attractive and beautiful shade of light vermillion, dwarf compact grower and sure bloomer. In color and habit of growth it leaves nothing to be desired in an ideal pot plant. **20c each; 3 for 55c, postpaid.**

SUNSET. This beautiful variety derives it name from the extremely beautiful color. Flower trusses are immense. Color clear, bright salmon; it is without doubt the finest and most beautiful of the salmon colored Geraniums. **20c each; 3 for 55c, postpaid.**

SUPREME. An improved Bruant in the single, strong, robust, semi-dwarf variety of finest bedding qualities. Flowers of a rich crimson pink, the upper petals heavily blotched white, with carmine veins. **25c each; 3 for 70c, postpaid.**

My collection embraces all the best variations of colored foliage—green edged with white—green and yellow—silver margined lighter—bronzed-crimson edged yellow and others. **Fine plants, 25c each; 3 for 70c, postpaid.**

IVY LEAVED GERANIUMS

The Finest of Them All

These are among the prettiest flowers; they are of exquisite colors and borne in large clusters all the year round; the plants are of graceful, trailing growth, with bright, glossy ivy-shaped leaves; fine for pots, window boxes, vases, etc.; also for bedding. **Select plants, 25c each; 3 for 70c, postpaid.**

Ivy Leaf Geranium

TWO FANCY GERANIUMS

LADY WASHINGTON GERANIUMS OR PELARGONIUMS

Always in Bloom, Summer, Fall or Winter

A valuable class of house and garden plants related to the Geraniums, resembling them closely in character, habit and treatment. Pelargoniums revel in hot sunlight, withstanding temperature and glare that would shrivel other flowers. All they ask is plenty of water They do not grow as dense or compact as Geraniums, consequently it is advisable to pinch back the long shoots once or twice prior to their blooming season in April, thus ensuring a nicely rounded, bushy shape. Colors are variegated, ranging from crimson with dark blotch, to pure white spotted, while many of them are heavily ruffled. **35c each; 3 for $1.00, postpaid.**

Lady Washington Geranium

PANSY GERANIUMS

While Pansy Geraniums and Lady Washington are often considered as the same thing, they are entirely distinct as you will notice from illustrations

A grand house plant of easiest growth, dwarf habit, and literally covered with flowers all the time, and as it requires little or no attention it is invaluable as a window plant. The coloring and markings of the flowers are most extraordinary—light pink, white, dark purple, black, etc., almost rivaling the Pansy in uniqueness of coloring. It is this combination of coloring which obtained for it the popular name of Pansy Geranium. **Strong plants, ready to bloom, 35c each; 3 for $1.00, postpaid.**

NEW HELIOTROPES

Delightfully Fragrant
Luxuriant Grower
Prodigious Bloomer

The Heliotrope has been a favorite in all flower gardens for years. Great improvements have been made in growing this flower, until now the blossom heads are fully double the size of the ones we used to know. In colors they run from lavender to purplish red, and the color is retained until the flower is nearly gone. These Heliotropes are now universal favorites on account of their delightful fragrance. The plants bloom equally as well as bedding plants out of doors during the summer or as pot plants inside during the winter. **Fine plants each 20c; 3 for 55c, postpaid.**

HARDY IRIS OR FLEUR DE LIS

The Iris Show the Most Wonderful Colorings of Any Plant Known Except the Orchid

Haines Perfection Iris

These Irises are all sun lovers and delight in a well drained situation. They are all delicioously fragrant, large and handsome, more or less beautifully mottled and veined. Their beauty at first sight rivals that of the Orchid, but, on closer examination, have no hesitation in saying they yield points of interest not to be found in the whole of the Orchid family. Those who have not used these Irises for surrounding lakes and ponds, or cultivated them in the flower borders, shrubberies, woodland walks, and wild gardens, should do so. If planted around ponds or lakes they should be placed well above the water level.

BLACK PRINCE. This is the very darkest colored of all the Iris, and claimed by many to be the finest. The upright or standing petals are purplish lilac, while the drooping petals are deep velvet black, making a very striking flower. **20c each; 3 for 55c, postpaid.**
